## Manual for opening a medical examination from a flash drive

1. Insert the flash drive into the computer, ensuring that the gold-covered connectors are inserted correctly.

2. Having opened the contents of the flash drive, run the Start.exe file

## **ATTENTION!**

It may not be possible to run Romexis browser on older computers due to system requirements. If you are unable to run the medical examination using the Romexis viewer, you can run the scan in the RadiAnt viewer as described above.
